

BUSINESS ADMINISTRATION AND ACCOUNTING (M.B.A./ M.S.A.)

Select Two 7000-Level Accounting Electives:

6

Total Credits

54

The joint M.B.A./M.S.A. program offers students the opportunity to obtain two degrees with a significant reduction compared to the credits required for pursuing both degrees separately. The enhanced efficiency not only lowers the overall tuition costs but also accelerates the time needed to earn both degrees. The joint M.B.A./M.S.A. degree program is designed to equip future managers with essential accounting tools and techniques to make informed managerial decisions. Additionally, this program introduces new career prospects in accounting for M.B.A. students.

To earn both the M.B.A. and M.S.A. degrees, students must successfully complete a minimum of 54 total credits. Students lacking a sufficient accounting background may be required to complete additional foundation courses. The joint degree program may confer diplomas either sequentially or simultaneously, depending on the student's preference and academic progress. All coursework must be completed in accordance with the regulations of the Graduate School (<http://bulletins.wayne.edu/graduate/general-information/academic-regulations/>) and the Mike Ilitch School of Business (<http://bulletins.wayne.edu/graduate/school-business/academic-regulations/>) governing graduate scholarship and degrees.

All foundation requirements must be completed before beginning core MBA requirements. However, your previous academic coursework will be reviewed in an effort to waive the maximum number of foundation courses you will need to complete. A cumulative grade point average of 3.0 (B) is necessary for foundation courses. No individual grade below 2.0 (C) is acceptable.

Code	Title	Credits
MBA Foundation Courses:		
ACC 6000	Introduction to Accounting and Financial Reporting	3
